

First Grade News

May 7-11, 2012

Math- Identifying and counting quarters

-Subtraction facts difference of 2

-Identifying geometric shapes

-Subtracting 2-digit numbers with no regrouping

Reading-Literature Circles- They have been doing a pretty good job with this. I try to give them time to work on it in class.

As a reward for all their hard work this year the First Graders will have a “Read-A-Thon” on Tuesday, May 15 in the afternoon.. Your child may bring in a beach towel to lie on and any books they want to read from home or they can read books here in the classroom. We will spend the afternoon reading and doing a variety of activities that involve reading.

Thanks to everyone who came along on our Field Trip. I hope you had a great time. I know I did. I think the Magic House is Awesome!
