## **Student Authorization for Internet Access; 2017-18**

Each student and his or her parent(s)/guardian(s) must sign the Authorization before being granted access to school internet service. Please read this document carefully before signing.

All use of the Internet shall be consistent with the District's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. This Authorization does not attempt to state all required or proscribed behavior by users. However, some specific examples are provided.

**The failure of any user to follow the terms of the Authorization for Internet Access will result in the loss of privileges, disciplinary action, and/or appropriate legal action.** The signature(s) at the end of this document is legally binding and indicates the party who signed has read the terms and conditions carefully and understands their significance.

Students are allowed to bring their own device and use it to access the internet. By allowing students to use their own technology, we hope to increase the access and comfort of all students so that they are better equipped to succeed. Whether they are using school computers or their own technology, students are obligated to follow the following guidelines. St. Rose School takes on no responsibility for student owned technology except to provide access to safe internet.
